

## Marilyn & Friends Feral Spay/Neuter Program

Name of Organization	Marilyn & Friends Feral Spay/Neuter Program
Brief description of the organization, its mandate, or function. When established? Why?	Marilyn & Friends' Spay and Neuter Program vets feral and stray cats in Cumberland Co., and relies solely on public funds. Approximately almost 500 feral and strays have been neutered or spayed over the past several years and many have found homes. Also, many kittens have been adopted. Kitten populations are declining gradually in this end of the county due to the number of cats being altered and that is what we are aiming for as well as having a healthier feral and stray cat population in our communities. Only with the support of the public can this program continue.
