

the SUNSET COMMUNITY

Sunset Residential and Rehabilitation Services Inc.

Mission Statement

The Sunset Community is committed to working with adults who need access to twenty-four hour support to live with serious and persistent mental and physical challenges. We will provide safe and supportive living, learning and working environments so these individuals can live satisfying and meaningful lives.

Vision

The Sunset Community will be a leader in removing barriers that prevent those who we work with from having access to choices, and the freedom to create personally satisfying and meaningful lives.

Values

Self Determination

The goals, wants and needs of the people we work with come first. Within the bounds of individual and group safety, the people we serve have the right to make informed choices and take informed risks. Those we work with will be supported to make choices about their lifestyle and the community in which they live.

Respect and Dignity

We first focus on the strengths of individuals. Everyone has the potential to grow and learn. All individuals and cultures deserve to be treated non-judgementally, with respect, dignity, fairness and kindness.

Communication and Collaboration

We work cooperatively. We encourage regular, open participation of all stakeholders in problem solving and decision-making. We support and encourage the positive involvement of family, friends, neighbours, volunteers and those with similar interests.

Integration

We will encourage the maximum inclusion of those we work with and our services with the communities that surround us.

Excellence

We are committed to upholding the highest standards of service through the pursuit of best practices and life-long learning.

Maximization of Resources

Our resources will be used creatively to maximize their positive effect on the health and well being of those we work with. We recognize the importance of sustaining our resources for the future. Our key resource is our staff and we will support each other to embody the above values.
